

A. PERSONAL PARTICULARS

Full Name: TRUONG DAI HAI RUNG

Date of Birth: 26/02/1994

Gender: Male

Nationality: VIET NAM

Country of Residence: VIET NAM

Phone: 0962.49.46.47

Email: rung.iuh@gmail.com

Website: <https://rungtruong.github.io/>

Summary:

Hi, My name's Rung. I graduated with honors in Cybersoft Academy. I'm a Web Developer with 1 years⁺ of experience in front-end development. I build websites and “make it awesome”.

Objectives:

Get a new job in a professional environment. Take advantage of the knowledge and experience that I have to help the company grow.

The work on the Web Front End brought me a lot of fun, arousing passion in the work. I'm ready to learn new languages, new technologies to improve myself and meet the needs of work.

I know the company is looking for friends, reliable partners and I am ready to go along with the company on the upcoming long trips.

Furthermore, I want to become a developer with good skills, passionate to share knowledge with everyone.

Interests: I like to play soccer, listen to music, like to drink beer and chat with friends...

- Linux OS, Window OS: Competently
- Other: Trello, Jira are competently

E. PROFILE

(Brief description of past and present work portfolio and experience in implementing similar services)

I have undergone 7 projects using the Angular framework and 3 project using ReactJS, including projects such as movie ticket sales site, the portal website to manage information, user, access, device IoT,..., and landing page website.

- Project:
 - Name: Website movie ticket sales
 - Academy: Cybersoft Academy
 - Role: Front-End Developer
 - Technology: Angular 6, RESTful API,...
 - Descriptions: In the project, I design UI for home page and admin management page and binding data from the server via API. The project helped me understand more about RESTful API, Guard, and Authentication.
- Project:
 - Name: The portal website for **5 projects use Angular 4, 6, 8:**
 - Company: Styl Solutions PTE. LTD. in HCMC
 - Role: Front-End Developer
 - Technology: Angular 4⁺, RESTful API, Authentication, Bootstrap, Material, SASS,...
 - Descriptions: I design UI for the admin page management, setting, statistical and graphing of graphs the data from the server. Through that projects, I understand more about folder structure, JWT, binding data via access level, guard routing,...

- Project:
 - Name: The portal website for 3 **projects use ReactJS**:
 - Company: Styl Solutions PTE. LTD. in HCMC
 - Role: Front-End Developer
 - Technology: ReactJS, Redux, Redux-thunk, Axios, Reacttrap, SocketIO, SASS,...
 - Descriptions: I design UI for the admin page management, setting, statistical and graphing of graphs the data from the server. Through that projects, I understand more about folder structure for React project, unit test with Jest and Enzyme,...

- Project:
 - Name: Website E-Commerce
 - Company: Styl Solutions PTE. LTD. in HCMC
 - Role: Front-End Developer
 - Technology: Opencart, SASS, JS
 - Descriptions: I custom theme for UI, design UI for the new plugin. The project helped me understand more about PHP, TWIG and MVC model.

- Project:
 - Name: The Landing page
 - Company: VillamTech Company (VILLAM., JSC)
 - Role: Full-stack developer
 - Technology: Angular 7, Rest API, NodeJS, Express, MongoDB/ Mongoose,...
 - Descriptions: With the back-end, I used NodeJS to code API and MongoDB for saving data. The front-end I used the Angular framework, I design UI for landing page and admin management page then binding data from the server via API. The project helped me understand more about Express, Middleware, JWT, Mongoose,...
